ESTABLISHED 1860

VOL. NO. 73 | CAMERON, MILAM COUNTY, TEXAS, THURSDAY, MAY 17, 1934 | NO. 4

BURLINGTON WELCOMES PARTY

Our Town

By J. B. White

"We cannot solve our economic problems by turning back or standing still. We cannot afford to cling too tenaciously to old convictions or yield too reluctantly to new ideals. The chaos of unbridled competition cannot be permitted to return. Some Federal agencies co-operating with business must continue to carry out the major functions exercised by the NRA and the AAA. This does not mean an era of bureaucratic control, but rather a regime of orderly economic freedom in which the industries themselves play their responsible part."

The quotation above is not from the President of the United States. It is the text of the keynote appeal of President Henry I. Harriman in opening the twenty-second annual convention of the United States Chamber of Commerce. He was completing his second term as the head of an organization which comprises the chambers of commerce of the country. A shrewd New England industrialist, few men have been in a position better to judge the conduct and cumulative results of the President's recovery program, directly and indirectly, inside and out. Supplementing what he could not fail to observe from his office on Lafayette Square in Washington, Mr. Harriman journeyed from coast to coast in an extended tour of first hand inspection. And prior to the opening of the convention, he received answers to questionaires submitted to business men, through affiliated chambers of commerce, in every section of the Union.

The significance of Mr. Harriman's assurance to the delegates that the course pursued by the President was essential to business recovery lies in the fact that no disposition was manifest by them to interfere with the orderly course of NRA and the further fact that Mr. Harriman was re-elected for a third term.

NRA Code Attorney Visits Cameron On Complaints Filed

An attorney representing the compliance division of the NRA was in Cameron Wednesday checking complaints filed for violation of the codes. It was believed that adjustments had been made and no prosecutions will result. Warnings were given.

The complaints involved alleged violations in the retail code and the graphic arts code represented by printing and publishing plants.

No names will be published based on the present check up but if violation soccur again and employes are worked in excess of code limits, publication will be made.

RURAL SCHOOLS FRIDAY

$91,008 IN LOANS TO FARMERS FROM U. S

Milam county farmers have received loans and approvals for loans from the Bryan Production Credit Association amounting to $91,008.00, according to Lesser Newton, secretary-treasurer of the association.

Since its recent organization the association, which includes Milam, Robertson, Madison, Grimes, Brazos and Burleson counties, has made an increasing number of loans to farmers for growing crops this season, for purchasing and producing livestock and for other general agricultural purposes. Altogether 412 farmers and stockmen have obtained loans or approvals, and new applications are being received daily.

Of the total amount of loans and approvals of the association, $39,975.50 has been paid out in cash to borrowers, including loans paid in full and first installments on budget loans. The balance of $56,032.50 will be paid out on a budget or installment basis, the money being advanced to borrowers in amounts as needed during the season, thus enabling them to save on interest costs and finish their crops or livestock operations by using their production money for production purposes.

Jim Baskin To Run For Assessor and Collector of Taxes

Jim Baskin, young Cameron business man and well known Milam county citizen, will be a candidate for Assessor and Collector of Taxes for Milam county. His formal announcement will be made in the succeeding issue of the sounty papers, he said to-day.

Sam Hefley Under Hospital Treatment

Sam Hefley, former member of the legislature and widely known Texas business man and leader, is in Kings Daughters Hospital in Temple for treatment. It was expected that an operation might be performed soon. His condition was reported better to-day. Many friends will regret to know that Mr. Hefley is ill and they trust he will soon be at home again.

Brady Man Gets Job As Legion Head To Succeed Perkins

M. J. Benefield of Brady was elected State Commander of the American Legion to succeed L. Van Perkins, resigned.

Mr. Perkins resigned his post on May 5 and the department executive committee met Sunday in Austin to select his successor.

EDUCATIONAL RALLY IN CITY PARK ALL DAY

Graduation exercizes for Seventh Grade Students from the rural schools of Milam county, will be held Friday morning at 10 o'clock in the City Park.

Mrs. Kathryn Robbins, County Superintendent, is supervising the program and making arrangements to welcome the students and visitors to the city.

Examinations were held here on Wednesday, May 9. Mrs. Robbins was assisted by rural teachers in these examinations. Final examinatons are being held this week in rural schools and it is expected that the graduating class here Friday will number 275 students.

The program Friday will be an all day meeting with a special program. Families are urged to bring their baskets and have lunch on the grounds.

Sarah Jeanette Yeager of San Gabriel won first place in the examinations with an average of 91 and Edwin Kloppe of Detmold won second with an average of 90.

A. J. Lewis, former criminal district attorney, will deliver the principal address at 10 o'clock Friday morning.

After the lunch hour children will

(See RALLY on page 6)

Paroles "Farce"

Lee Simmons, pictured here, manager of the Texas Penitentiary System, brands the Texas pardon system a "farce" and recommends revocation of the Governor's power to pardon, believing the parole system would work on a basis of merit alone. His statements were made at a meeting of 300 Texas police heads in annual convention in Dallas. (Texas News Photos.)

OIL CODE MEETING

Next regular meeting Court House Cameron, Friday, May 18th, 2:30 p. m. Refiners, jobbers, wholesalers, retailers and all in any way connected with petroleum industry expected to attend. Committee chairman expected to make reports.

Jesse Brock, Sec.-Treas.
Sub-zone 3 of zone 9.

CAMPAIGN OPENS ON FRIDAY NIGHT

Democratic Candidates were making preparations today to attend the opening of the campaign in Burlington Friday night, May 18.

Word has been received from Burlington that the people of that community are arranging a program of entertainment to welcome the candidates and visitors for this occasion.

For the first time in the history of the county, program of speaking dates has been arranged under the auspices of the Democratic Executive Committee.

A complete schedule of speaking dates are expected to be announced soon.

The candidates will speak at Davilla on the night of May 25. They will speak at Vogelsang on the night of June 12. A date has been set for Rockdale on the night of July 20.

An American Legion picnic is scheduled at Milano for June 18 and 19. The candidates will speak at night on one of these dates, yet to be announced.

JAMES W. COLEMAN IS BURIED IN CAMERON

James W. Coleman, 61, Cameron business man and former president of the Commercial Club, died at his home here Friday morning May 11, 1934 at 10:10 o'clock.

Mr. Coleman had been in ill health for several months, his condition growing steadily more grave. The end came peacefully at his home with members of the family at his bedside. While it was generally known that he was critically ill, his death came as a shock to the city where he had for years been active both as a business man and civic leader.

Mr. Coleman was born in Montgomery county, Alabama December 20, 1873 and came to Texas at the age of 19 years, settling in Cameron where he later engaged in business.

A man of unusual business ability, he prospered and expanded his interests. At the time of his death he owned farm lands and The Cameron

(See COLEMAN on last page)

Cameron Men Involved In Dock Trouble As Strikers Resist

Negro pickets for union dock workers at Galveston fired on two truck loads of workers from Cameron CWA headquarters Friday night as they drew up to the warves where employment awaited them.

Longshoremen are on a strike and are resisting importation of labor to unload boats tied up in gulf waters.

Jim Perkins, former ranger, Dave McLane and LeRoy Johnson in company with two rangers resisted the attack and two negroes were killed. Johnson and the rangers were charged in the shooting. As the trucks approached the docks they were fired on. The officers returned the fire.

Mallory Lines have given employment to a large number from Cameron. Mr. McLane and Mr. Johnson are employed as guards.

The laborers fired upon were taken by truck from Cameron, and others may be called for.

SIX SCHOOL STUDENTS HURT IN CAR WRECK

Six students from the seventh grade were injured, one critically, Saturday morning near the Bickett farm on the Hanover road when their car crashed into an iron bridge and was badly wrecked.

Bobby Casey, son of Mr. and Mrs. Joe Casey, was critically injured and is now in the Cameron Hospital. While his condition remains unchanged it was considered likely that he would recover if complications of a grave nature did not attend his injuries. He is under constant care of physicians. When the car struck the bridge a protruding steel railing chashed through the machine and struck his right leg tearing away the flesh and crushing the bone. The hip joint is also badly mangled. He was rushed to the hospital in the Green Bros. ambulance. Physicians were battling desperately to save his life and he has shown remarkable strength. The entire city was most

(See AUTO CRASH on page 6)

Carload Coolerator Refrigerators Are Shipped To City

Cameron Ice & Cold Storage Company has received notice of shipment of a car load of Coolerator Refrigerators which are expected to be received here soon.

The Coolerator is the 1934 ice contribution to the modern home. In this issue will be found a large display advertsement from the local company setting out the features of the Coolerator.

A number of these models have already been sold and some are now on display.

The big feature of the new refrigerator is the washed air cooling system. It is iced from 4 to 7 days apart and the temperature remains sufficiently low for all food needs whether the box has 5 or 100 pounds

(See COOLERATOR on page 6)

GAUSE SCHOOL BURNS TO GROUND FRI. NIGHT

Fire of an undetermined origin Friday night completely destroyed the Gause school building valued at approximately $20,000.

It was believed defective wiring may have caused the fire. The building was of brick construction and had six rooms, a two story structure. The loss was practically total.

Only $8000 in insurance was carried and it was said that an indebtedness of $4000 existed against the property.

It was believed that some immediate plan would be made to rebuild another school for the opening this fall.

Clyde's Mother Held

Here is Mrs. Henry Barrow of Dallas, mother of Clyde Barrow, who Thursday night was taken into custody and to the Smith county jail in Tyler in a move to bring about the capture or death of her outlaw son. However, she was back in her West Dallas home Saturday, confident that she had revealed nothing to the State officers. "I didn't tell 'em nothing," she said to friends who gathered to congratulate her on her safe return from the hands of "the laws." (Texas News Photos.)

SCHOOL BOARD MEETS AND NAMES TEACHERS

Teachers for the next term of school were named Thursday night when the city school board met.

An effort was made to get a contract with Burlington district to bring high school students to Cameron. It was found that a contract already exists with Rosebud school, for this and next year.

In the high school the following teachers were named: Lucille Dickard, Helen Flinn, Mrs. J. C. Culpepper, Charles Hicks, Louise Lanham, Ethel Skelton, Louise Green, Mrs. Ann Nealy Posey, Blanche Pitts, Katherine Robbins, A. C. Strickland and Dallie Young.

For the Ada Henderson school: Irma Porter, Principal; Emma Clement, Nadine Bragg, Mrs. C. Childers, Agnes Dusek, Katherine Flinn, Winnie Henderson, Blanche Hensley, Ethel Jenkins, Clementine Armstrong, Grace Mangum, Mrs. Chas. Nabours, Katherine Sproull, Blanche Wiley and Dora Emily Moore.

Lester Turner has been employed superintendent for the Ada Henderson building.

HOME WANTED

Will consider purchase, lease or rental of nice home well located, not too close in. Must have garage and modern conveniences. Might consider furnished apartment that is strictly private. Reliable tenant and would be permanent. No children. Address Cameron Herald.

'Riptide' On Screen For 2 Days Here

Norma Shearer offers another of her magnetic and fascinating performances as a modern woman with ultra-modern ideals in "Riptide," her newest photoplay which opens today at the Cameron Theatre. Lavishly produced, brilliantly enacted by its star and an impressive supporting cast and bearing the directorial stamp of that ace director, Edmund Goulding, who also wrote the story, the new Shearer vehicle stands out as one of the finest productions to

(See "RIPTIDE" on page 6)

Home Economic Class Visits Laundry Here

The Home Economics class of the ninth grade in high school was received by Raymond Sharpe at the Acme Steam Laundry Wednesday morning and conducted through the plant.

Miss Kathryn Robbins, teacher, accompanied the class. She expressed her appreciation and that of the students for this courtesy on the part of Mr. Sharpe.

NEGRO SENTENCED

E. L. Burleson entered a plea of guilty to felony theft in District court this week and was given a prison sentence of three months.

J. W. COLEMAN

He clung to this life but was not afraid of the next. In the grim battle, he fought valiantly, with no loss of hope or thought of faltering; and in the last hour, when he could see into the valley of the shadow, in his countenance there was no trace of fear.

Through life he followed the path of conscious rectitude. He believed in the right, and was unyielding in its behalf. Some are right according to law; he was right as a matter of principle. Some crave honor and seek the confidence it invites; with him it was a gift of nature.

He was enterprising and progressive, and essentially active. In business, in church life or lodge affiliation, as a public officer, as President of the Commercial Club, or as a citizen, he was ever up and doing, always astir, ever alert and active.

Measured in years, his life was not rounded out. We who knew him best and appreciated him most are prone to complain that his useful career was cut short; but he who lives longest does not necessarily live most. "We live in deeds, not in years."

His busy, stirring, industrious, active life may be likened unto the full day of the alert soldier in the storm of battle. At the first sound of the bugle call he is in line. He leads every charge; he is last to retreat before the enemy's attack. At high noon he is in the thick of action. The weary hours drag, and he fights on through the even-tide. At nightfall the battle is over. The day is done and the drummer has sounded taps. The soldier has lain down to rest.

PHONE NO. 2 "WE HAVE IT"

Presidential Electors Once Had More Privilege

Presidents and Vice Presidents of the United States who have been members of different political parties, but served together, included: President John Adams, Federalist, and Vice President Thomas Jefferson, Republican; President Andrew Jackson, Democrat, and Vice President John C. Calhoun, Republican.

In the early days Presidential electors were not bound by political party pledges, but were free to vote as they wished. After the amendment of 1804, selections of Presidents and Vice Presidents were made on separate vote, the result being that it could and did happen they were sometimes members of different political parties.

The germ of the Democratic party is to be found in the anti-Federalists, who opposed the adoption of a federal Constitution. A moderate party, led by Jefferson and Madison, recognized the need of a stronger central government than the articles of confederation afforded, and were alarmed at the centralized tendency manifested by Hamilton and the Federalist party. To this moderate party was given the name of Republicans, about 1792. During the French revolution extreme sympathizers with the new French republic formed so-called "democratic clubs," the fundamental principles advocated by these clubs being equalitarianism and the extreme of liberty for the individual. Though not in complete accord with the Republicans, adherents of these views were forced to act in harmony with the Republicans in opposition to the Federalist measures, and were eventually absorbed by the party which came to be known as the Democratic-Republican, the later official designation of the Democratic party.—Indianapolis News.

U. S.-Canada Boundary Through Center of Lakes

The boundary between the United States and Canada runs through the center of the four border lakes and their connecting channels (Lake Michigan, of course, being entirely within the United States); and jurisdiction over the lakes is shared by the two countries, says the Cleveland Plain Dealer.

Both countries have an interest in maintaining the natural level of the lakes in order to keep the water power at Sault Ste. Marie and at Niagara undiminished, and in order that the depth of harbors and the channels connecting the lakes may not be lessened.

There is a permanent International Waterways commission, consisting of three Americans and three Canadians, that has control of the waters of the lakes for power and other purposes.

Within the territory of the United States shipping and navigation are subject to the same laws and regulations as prevail on the other natural waterways of the United States. On the Canadian side shipping observes the Canadian laws. Each country provides the necessary aids to navigation at its own ports.

Products of Casein

There are several different kinds of plastic material used in place of horn, ivory, celluloid, hard rubber, etc., in making knife handles, all the products of the casein industry. Ordinary cow's milk contains about 3 per cent of casein. Skimmilk is run into vats, a little sour milk or culture of lactic acid bacteria added, and it is allowed to ferment until curdling is complete. Then the clear liquid is run off, the curd washed, pressed into cakes and dried. There are two principal processes for the manufacture of casein plastics. In one of them, the casein is first dissolved in ammonia or an alkali, then dyestuffs, pigments or fillers added to give the right color, and a coagulent such as an acid is added. In the dry process, the casein is powdered and mixed with the dyestuffs, then put through extruding machines or heated calendar rolls, which convert the powder by means of heat and pressure into plastic rods or masses. This is hardened by means of formaldehyde and is seasoned by drying.

Dreaming

The problem of dreams is one concerning which scientists are not entirely in accord. Modern investigation of sleep indicates that special psychic forces do not operate in a dream nor does the entire activity of the brain rest during sleep, but it is always, perhaps with the exception of sound sleep, which lasts only a short time, only a part of the brain that rests. Some parts of the brain do not go to sleep but continue to work, especially after over-stimulation. There have been numerous instances where persons claim to have dreamed solutions to problems, which on awakening they found to be correct, but upon investigation it is believed that in such instances the subject was only in a partial state of sleep.

Strange Monkeys

Probably the strangest monkey is the proboscis monkey with its long flat nose which it uses as a lever to hunt for insects under the bark of rotting trees. When the nose has lifted up the bark the mouth is close by to gobble up whatever food is present. Another odd-looking member of this family is the heart-nosed monkey, so named from the heart shape of its schnozzle. Two mutton chop effects of lighter fur coming down from the eyes and toward the upper part of the jaws add to its weird appearance.

BUCKHOLTS

Mr. and Mrs. Otto Meyer and family of Cameron visited relatives here Sunday.

Born to Mr. and Mrs. Otto Kamenecky Thursday, May 10 a son.

Misses Virginia and Reba Burnet of Hoyte spent the week end in the home of Rev. and Mrs. W. P. Elliott.

Mr. and Mrs. Joe Petruey and daughter, Doris Ruth, visited in Buckholts and Bryant Station Sunday.

The P. T. A. is sponsoring a movement to keep the school library open on Saturdays from 3 to 5 p. m. during the summer months. This is a community wide enterprise. Magazines and books are solicited and any help will be appreciated.

Harold Allen is a patient in a Marlin hospital.

Harvey Yoe and Vernon Bain spent the week end in San Marcos.

Mr. and Mrs. E. L. Hinson attended a Mothers' Day program in Davilla Sunday.

Mr. and Mrs. H. N. Harris visited their nephew, Bobbie Casey in the Cameron Hospital Sunday afternoon.

Mr. and Mrs. Cecil Criswell were Sunday guests of Mr. and Mrs. T. F. Criswell in Calvert.

Mr. and Mrs. Cecil Clendennon of Bluffdale spent the week end with Mr. and Mrs. Hubert Martin.

The baccalaureate sermon was delivered by Rev. O. C. Acrey, pastor of the Cameron Presbyterian church, on Sunday evening May 13 at the Hope Lutheran church.

Mrs. W. G. Bain, Misses Freida Prinzing and Annie Lottie Wenzel shopped in Temple Saturday.

Miss Marie Kadlecek and brother, John Kadelecek of Houston were week end Buckholts visitors. Miss Marie was a guest of Miss Maxine Hyer while here.

Mr. and Mrs. Joe Raska and children accompanied by Emil Drizga, and Misses Agnes and Marie Drizga of Temple went to Rosenberg Saturday to visit relatives.

Mr. and Mrs. E. V. Kovar, daughter Bernice, and son Emil and Mr. and Mrs. John Kovar of Fayetteville were week end guests of Mr. and Mrs. Mike Kovar and Mr. and Mrs. Frank Kleiber and family.

Marvin Slovacek and Victor Bauch visited Carl Bauch, a patient in the Cameron Hospital Sunday.

Miss Charlie Frances Williams, daughter of Mr. and Mrs. Charlie Williams, who is a student in Baylor College, came home for the week end bringing as guests Misses Elizabeth Getzendoner and Louise Burns of Uvalde and Miss Roselle Jones of Haskel, who are also attending the college. These four young ladies were Sunday guests in the home of Mr. and Mrs. E. B. Hyer.

Among those from Cameron attending the baccalaureate services here Sunday night, were Rev. and Mrs. O. C. Acrey, Mrs. K. K. Robbins, Dr. and Mrs. James Watson, John Watson, Mr. and Mrs. Guy Newton, Judge and Mrs. Graham Gillis, Miss Theresa Manning and Billie Gillis.

AS YOU LIKE IT CLUB

Mrs. R. H. McIntosh was hostess to the As You Like It Club. At the conclusion of the social hour she invited guests to the dining room where they found places around the board by cards that characterized each individual.

Night School Held For Negro Vocation Agriculturists

The vocational agriculture instructor of the Cameron colored high school concluded his second evening school of the year on last Thursday evening at Minerva.

The subject of the courses taught was Orchard Protection. Emphasis was placed on planting the orchard, grafting, pruning and budding.

A short program was rendered by the members of the evening school, after which refreshments were served to all.

The instructor wishes to thank Prof. J. L. Burks and Miss Itasca Cavil for their splendid co-operation. Also the many farmers that supported the school.

KINARD-SCHILLER

Oscar Schiller and Miss Mattie Kinard were married Friday evening May 11th at 7:15 o'clock at the First Presbyterian church, Rev. O. C. Acrey, pastor, reading the ring ceremony.

The bride is the daughter of Mrs. Allie Kinard of Cameron and was reared here and attended school at Baylor. She was attractively dressed in white moss crepe made in slendering lines, with white accessorics and wore a corsage of sweet peas with valley lilies.

The bridegroom is the son of Mrs. Matilda Schiller of Caldwell, and for the past fifteen years has been employed at the E. O. Schiller drug store, and is a brother to E. O. Schiller. He is a young man of splendid qualities and has made many friends since coming to Cameron.

Immediately after the ceremony they left for Waco where they had a dinner date, returning to Cameron where they have begun housekeeping.

Many beautiful bridal gifts have been showered on them with wishes for a long happy married life.

CURRY H. D. CLUB

White deposits in beet pickles, etc. indicates use of hard water, or table salt, was told by Miss Bertha Fae Strange in her demonstration in making beet relish, carrot marmalade and red pepper rings, when the Curry H. D. Club met with Mrs. Jess Coward. Fifteen club members and seven visitors were present. The next meeting is with Mrs. Will Hughes Friday May 18 at 2 p. m. Subject: "Why Not Win a Prize?"

Constipation Symptoms Soon Go Away After Use of Black-Draught

Mrs. S. G. Ramey, of Henryetta, Okla., writes that she has taken Thedford's Black-Draught about twenty-five years, when needed, and has "found it very good." "When I have a sour stomach and my mouth tastes bitter, and I feel bilious, sluggish and tired, I will very soon have a severe headache if I don't take something. I have learned to keep off these spells by taking Thedford's Black-Draught. Very soon I am feeling fine. I feel that Black-Draught can't be beaten as a family medicine." . . . Get a package of Black-Draught today. Sold in 25¢ packages.

Mrs. H. F. Albert, Mr. and Mrs. Ray O'Neill and family, Mr. and Mrs. Walter Marek and family visited in Austin County one day this week.

Mr. and Mrs. W. B. Levy spent a few days in Temple last week visiting friends.

LOWER TAXES

What? Yes

DEPRESSION laws knocked off the usual penalties and interest and substituted lower rates on taxees delinquent July 1, 1933. You will recall that from time to time the Legislaure of Texas has been suspending penalties, interest and costs on delinquent taxes. In September 1933 the last measure of this kind was enacted, with a provision written into the law, providing that this should be the last Remission Bill ever to be passed by the Legislature. This special law is known as Senate Bill No. 262 and by its own provisions expires and ceases to exist June 30, 1934. On July 31, 1934, all regular penalties, interests and delinquent costs return. You may pay taxes delinquent for 1932, or any prior year, by paying the amount af taxes due plus a penalty of only 6% except that for 1929 and prior years certain costs are due, which are not remitted.

We submit the following example:—

In July 1934—

30½ % will be added to 1930 taxes delinquent.
24½ % will be added to 1931 taxes delinquent.
18½ % will be added to 1932 taxes delinquent.

(A delinquent cost will accrue in addition to above)

$100.00 taxes delinquent for the year 1930 may be satisfied in full during May or June for $106.00; however, the same taxes paid in July would be $131.50, and the same differences apply for all other years.

For your information we call attention to Senate Bill No. 4 passed by the same Session of the Legislature that gave us above remission law, which is an Act providing for the transfer of the lien for taxes that the State, County or defined subdivision thereof, has upon real property. In other words, if a delinquent tax payer is unable to pay taxes delinquent at this time and thereby realize a substantial saving, he may arrange with a friend, or other persons, to pay the taxes and request a transfer of the lien for the taxes, which transfer is executed by the Tax Collector and gives the individual the same lien and security for taxes held by the State.

We urge every delinquent tax payer to take immediate action to adjust all past due taxes as it is practically certain that relief from penalty will never again be offered. We make the further suggestion that where delinquent tax payers do not avail themselves of the opportunity now presented and pay up delinquent taxes it will become necessary to take steps to enforce statutory liens for taxes and this action will proceed as rapidly as practicable after July 1, 1934.

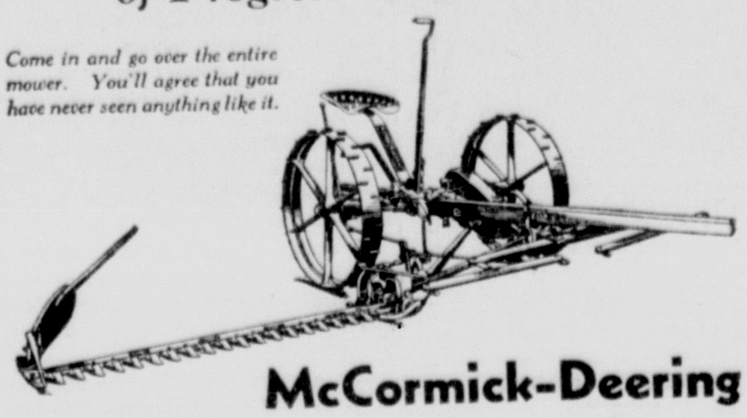
Respectfullysubmitted,

ROY LAW

TAX COLLECTOR, MILAM COUNTY, TEXAS.

This is the New Mower the Crowds Admired at A Century of Progress Last Year

Come in and go over the entire mower. You'll agree that you have never seen anything like it.



McCormick-Deering No. 7 Enclosed-Gear Mower

WE are anxious to have all of our friends see the New McCormick-Deering No. 7 Enclosed-Gear Mower. We think it is one of the finest pieces of farm equipment we have ever sold!

Everybody who has seen it says they never had any idea that a mower could be built as this one is.

For example: The entire operating mechanism, including drive gears, differential, and countershafts, is assembled compactly in an oil-tight gear housing and runs in a bath of oil. There are four high-grade roller bearings. Operation is so smooth and noiseless that you can scarcely hear the light hum of the sickle!

Special oil seals at the ends of the main axle and flywheel shaft, and the oil-tight gear box prevent leakage and protect all working parts against the entrance of dirt and other abrasive materials. Floating action of cutter bar provides ample play without disturbing knife registration.

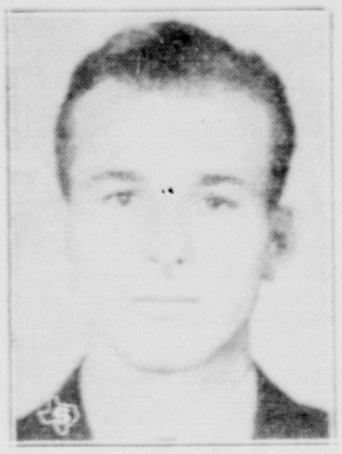
Engineer Wins



Jesse Moore of Port Arthur was elected president of the student body of Southern Methodist University, Dallas, in the hottest campaign ever held. He is a senior. This is the first time an engineer has held this position. He won 2 to 1. (Texas News Photos.)

NOTICE TO BIDDERS

Notice is hereby given that bids will be accepted by the Commissioners Court of Milam County, Texas, until May 17, 1934 at 2 p. m. and then publicly opened and read for one road grader, 10 foot blade, for Milam County Commissioner Precinct No. 2. Specifications for this machine may be secured by calling on Grady Stidham, Commissioner of Precinct No. 2 at his home in Cameron, Texas.

One crawler type tractor equipped with Diessel engine for Milam County Commissioner Precinct No. 4. Specifications for this machine may be secured by calling upon Clyde Moore, Commissioner of Precinct No. 4 at his home in Davilla, Texas. In payment for the above described Crawler type tractor warrants will be issued in the maximum amount of Three Thousand and Five Hundred Dollars ($3,500.00) to bear interest from date at the rate of Six Per Cent per annum, and to mature in 1, 2, 3, 4 and 5 years.

A cashier's check in the sum of 5 per cent of the total amount of each bid must accompany the bids and right is reserved to reject any and all bids.

Witness my hand this the 2nd day of May, 1934, at Cameron, Milam County, Texas.

(2-tc) JEFF T. KEMP,
County Judge, Milam County, Texas.

PYORRHEA

HAVE YOU GOT PYORRHEA?

Sore, Bleeding, Pus Filled Gums?

Trench Mouth, Ginvivitis, Vincents or Riggs disease are all just different names for that dread disease PYORRHEA which if taken in time can be successfully treated.

More teeth are lost from Pyorrhea than decay.

Doctor E. W. Lyon, registered dentist, and Pyorrhea specialist, has written a valuable lecture in which he explains how Pyorrhea may be treated with success at home.

Doctor Lyon will mail this valuable information to you Free upon request, postage prepaid. Just write:—

DOCTOR E. W. LYON, Dentist,
522 East Genesee Ave., Saginaw, Michigan.

Presided

E. F. Simmons of Dallas presided over the fourteenth annual convention of the Texas Retail Dry Goods Association in Dallas. Business recovery and compliance with the codes of fair competition were the principal subjects on the program. (Texas News Photos.)

Tracy Longmire On Big Ship of Fleet To Pass Panama Canal

Tracy Longmire, brother of Mason Longmire, deputy City Marshal in Cameron, was aboard the battleship West Virginia when the fleet passed through the Panama Canal recently.

Patrons of the Cameron Theatre Friday saw the great armada moving through the canal and passing out to sea in grand fighting array. Tracy Longmire is a sailor aboard the fighting ship.

CHICKENS! TURKEYS!

Don't take chances on having wormy diseased fowls and losses from insects in the spring. Begin now to give Star Parasite Remover to both fowls and baby chicks drinking water. It will destroy the germs that cause the disease causing worms. Also keep them free of Lice, Mites, Fleas, Blue Bugs, insuring good health, good egg production, good hatches and strong baby chicks at a very small cost or we refund your money. New Cameron Drug Company. 12t-c

NOTICE OF SHERIFF'S SALE OF REAL ESTATE

NOTICE IS HEREBY GIVEN That by virtue of an order of sale issued by the Clerk of the District Courts of Dallas County, Texas, on the 2nd day of May, 1934 in a certain cause wherein Bankers Life Company, a corporation, is plaintiff, and John Ermis, John Zajicek, Stanley Posival, Mrs. Joe Zajicek, Joe Zajicek, Annie Zajicek, Sylvia Zajicek, Caroline Zajicek, Mary Zajicek, the Unknown Heirs of Joe E. Zajicek, deceased, Anton Fritz, Frances Fritz and Buckholts State Bank are defendants, No. 6030-E, plaintiff recovered judgment against the defendant John Ermis for the sum of $4895.61, with interest thereon from March 31, 1934, at the rate of ten per cent per annum, and costs of suit, which judgment was rendered on March 31, 1934, in the District Court of Dallas County, Texas, for the 101st Judicial District of Texas, I have levied upon and will, on the first Tuesday in June, 1934, same being the 5th day of said month, at the Court House door in the City of Cameron, Milam County, Texas, between the hours of ten o'clock A. M. and four o'clock P. M., proceed to sell to the highest bidder for cash all the right, title and interest of said defendants, or any of them, in and to the following described real estate, levied upon May 5th, 1934, as the property of said defendants, to-wit:

Situated in the County of Milam, State of Texas, being 100 acres of land, located about one and a half miles west of Buckholts and eleven and one-half miles west of Cameron, known as the Ermis farm, being a part of the Jose Antonio de Pena Eleven League Grant, Abstract Number 43, and being Tracts Numbers 3 and 4 of the Subdivision of the M. Ermis 521 acre tract of said Survey, and being the same land fully described in deed of trust from John Ermis and Annie Ermis, his wife, to G. W. Fowler, Trustee, dated January 15, 1926, and recorded in Volume 58, page 478, of the Deed of Trust Records of Mlam County, Texas.

The above sale will be made by me to satisfy the above described judgment, and the proceeds thereof will be applied to the satisfaction of said judgment.

THE HERALD

Firestone LEADERSHIP

"The Ultimate Test of Leadership is Performance"

Firestone has maintained its leadership in tire development by producing a new tire for 1934 with a wider tread, flatter contour, deeper non-skid, greater thickness, and more and tougher rubber, which gives greater non-skid safety, more traction, greater blow-out protection, and more than 50% longer non-skid mileage.

For fourteen years leading race drivers have driven to victory on Firestone tires, built with Gum-Dipped high stretch cords. They have trusted their lives to Firestone Leadership—as they know that the patented Firestone construction features provide them with greater safety—longer mileage—and greater blowout protection.

MILANO

Brother Cannan of Cameron preached to a large crowd here Sunday night. We would be glad to have him come more often.

Mrs. S. W. Swindoll is still sick, and not able to teach. Mrs. W. D. Woods is teaching for her.

Miss Mary Lee Taylor who is attending school in San Marcos spent Mothers' Day here with her parents.

Mrs. Lula Haddox is visiting relatives in Caldwell this week.

Miss Lizzie Boen spent the week end with her parents at McGregor.

Mrs. Lula Haddox fell and hurt her back last week. She is improving now.

Mrs. J. B. Newton is visiting her daughter, Mrs. Caldwell in Joinerville this week.

Mr. and Mrs. Johnnie Hooker are the proud parents of a new baby girl. Both mother and baby are doing well.

Mrs. J. T. Robinson and daughter, Mrs. Caldwell of Buckholts, are visiting in Milano.

Mr. and Mrs. Ed Brennan, Mr. and Mrs. Larry Brennan of Somerville spent Sunday here with their mother.

Mrs. W. T. Burdick of Houston spent Mothers' Day here with her parents, Mr. and Mrs. Freeman Hooker.

The eleventh grade of the Milano High school went to Austin Saturday. They were accompanied by three of the teachers. The seventh grade will go to Austin Saturday May 19.

Children in the home of Mr. and Mrs. J. B. Newton Sunday were Mrs. Burns, Houston; Mrs. Smith, Sugarland; Mrs. Cardnell, Joinerville, Mrs. Butts, Thorndale; Mrs. Arington, Thrall; Walter Newton, Cameron; Jim Newton, Rockdale; Lesser Newton, Mrs. Elam and Mrs. Jim Baggett, Milano.

Miss Grace Hill of Chriesman was a guest last week of her aunt, Mrs. Dan Robinson.

Visitors in the Newton home Saturday were Mr. and Mrs. Mike Newton of San Antonio, Mrs. Lewie Newton and daughters, Ellen and Doris.

Miss Pearl Pinkerton has her mother for a guest this week.

TO SETTLE AN ESTATE

The house and lot owned by Mrs. Sophie E. Boone will be sold at a bargain. This home is located in the city of Rockdale. For further information address J. P. Awalt, Administrator, 811 Elm Street, Dallas, Texas. 2-5tc

Hyrax Is Nearest Known Kin to Elephant Family

Those scientists who make it their business to probe into nature's secrets are continually surprising and startling us with the assertions they make from time to time, but none of their declarations seem much more difficult to believe than that the hyrax, and closely related species of the same animal, are the nearest known living relatives of the elephant. The hyrax is also called coney, or dassie in South Africa.

In shape and size the hyrax resembles a large rabbit except for its somewhat rat-like head, and unlike the rabbit it does not hop but walks or runs, using its legs separately.

Anatomical studies made by zoologists have established the relationship existing between this unimpressive animal and the lordly elephant, the burden of proof lying in a comparison of the skeletal structure of their feet. Paleontologists have done their part by declaring that ancestors of the two that existed during the Secondary epoch in geological time were themselves descended from the same line of ancestors. These are known to scientists as the Moeritherium and the Megalohyrax. The Moeritherium, ancestor of the elephant, has been described as a clumsy animal, somewhat tapir-like in appearance and size, with only the barest suggestion of a proboscis. The Megalohyrax, ancestor of the hyrax, which is believed to belong to the same epoch in time as the Moeritherium, was also about the same size. Comparison of the elephant and the hyrax with fossil specimens of these far distant relations indicates that the elephant has increased in size since the time which they represent at about the same rate at which the hyrax has lost in stature.—Detroit News.

India's Red Jungle Fowl May Be Daddy of Chicken

The red jungle fowl, of India, is believed to be the ancestor of all of our strains of domestic chickens, says a writer in the Detroit News. Perhaps one reason for its domestication is the fact that in its native range, along the slopes and valleys of the Himalayas, it shows a preference for living fairly near to small villages rather than in deep jungles. A famous naturalist and explorer states that it might better be named bamboofowl than junglefowl because it is especially fond of this type of vegetation and is usually found in a vicinity where bamboo grows.

The chief difference in appearance between the wild junglefowl and its domesticated cousin is a matter of carriage. The real wild junglefowl cock carries his tail low, walks with slightly bent legs and low head, always in an attitude of listening and watching; in marked contrast to the erect carriage, high held tail and strutting gait of the domesticated cock.

The crow of the junglefowl so closely resembles that of the common barnyard fowl that he states he has more than once unconsciously withheld his fire when a bird he had been stalking suddenly uttered the familiar barnyard sound.

Edible Figs

There are two types of edible figs. One type will develop fruit without pollination and includes the White Adriatic, Black Mission and Kadota. The other type requires pollination and includes chiefly those called Calimyrna, Stanford and San Pedro. Figs are insect-pollinated plants, the pollen-bearing flowers and the edible fruit being borne on different trees. The male tree is known as the caprifig. The staminate flowers which bear the pollen are just inside the eye, and the gall flowers, which are modified female flowers, occupy the rest of the cavity of the fruit.

About Shoes

When shoes were first worn, thousands of years ago, it was the custom for a man to take off a shoe and give it to his neighbor as a pledge to seal a bargain or close a deal. Heels and stout soles were not invented till the Fifteenth century. They were originally intended for riding, as they gave a firmer hold of the stirrup. Today, it takes 80 workpeople to make a shoe, 150 kinds of machines are employed in the various operations, and 450 processes have to be gone through before the boot or shoe is ready to be worn.

Indians as Citizens

All children born to citizen Indian parents are natural born citizens and would be eligible to become a candidate for President. Until 1924, only about two-thirds of the Indians of the United States had received citizenship but an act of congress in June of that year made all Indians citizens. It is generally believed that an Indian born in the United States but who received his citizenship through congress would not be eligible for the office. This is a question which would be decided by the courts if such occasion arose.

National Bison Range

The National Bison Range is maintained by the bureau of biological survey, United States Department of Agriculture, near Molese, Mont. This is a small town in the southwestern part of Lake county, Montana, in the northwestern part of the state. It is just west of the Mission range and south of Flathead lake. The range has an area of 18,535 acres.

Girl Runs Airport

Miss Helen Johnson of Brownsville, Texas, shown here with her plane, is one of the few Texas women to hold a transport license as a commercial pilot. And she is the only woman known to run an airport. She has just been selected as co-manager of the municipal airport at Palestine, Texas. (Texas News Photos.)

Washed Air

For good health's sake insist on pure washed air in your refrigerator.

Only a Coolerator

Supplies completely washed air. Fresh, free from gases and odors. The most nearly perfect refrigerator. A good place to keep the foods you intend to eat.

IN A COOLERATOR—a new kind of refrigerator—the air circulates under the ice only.

this means . . .

Rapid Circulation of Air. Quick cooling of all sections of the food compartment.

Uniform, correct temperatures at all times, whether the ice chamber is full or nearly empty.

Proper humidity keeps foods from drying out; preserves them more nearly in their natural state.

The gases given off by foods which carry the odors are absorbed by the water from melted ice.

With the Coolerator, the air in the food compartment is washed clean and is pure at all times.

With ice in a Coolerator you have the most nearly perfect refrigerator.

The Coolerator keeps food better and costs less to own and operate.

Requires re-icing only every 5 to 7 days. You have at all times a liberal supply of pure untainted ice for cubes.

FREE TRIAL!

We don't ask you to take our word for it. Test these facts for yourself in your own home, without obligation.

"RIPTIDE"

(Continued from page 1)

come from the Metro-Goldwyn-Mayer studios and provides an entertainment of distinction in every phase of motion picture artistry.

Norma at Her Best

As Lady Rexford, in the daringly triangular Continental romance, Miss Shearer is regally superb. Never has she appeared so beautifully photographed or handsomely costumed. Her performance is nothing less than magnificent, even more superb than her "Divorcee," which won her the Academy of Motion Picture Arts and Sciences award in 1929.

With the customary flair attached to a Shearer film the star is provided with not one leading man but two. Robert Montgomery enacts the playboy friend and Herbert Marshall is seen as the more sober-minded husband. Each delivers a superb performance.

Edmund Goulding performed gallant service as both author and director and achieves a screen product of unusual merit in entertainment values. There is all the box office in the world crowded into his story and development, with Miss Shearer's characterization giving both the women and men in the audiences something to thrill about.

Reminiscent of her roles in "Divorcee," "Strangers May Kiss," "A Free Soul," and "Strange Interlude," the new vehicle departs from conventional paths and reveals Miss Shearer as a very modern young woman who is unafraid of life, entrusting her emotions to an honesty of expression, regardless of consequences.

Married to a matter-of-fact English lord, she becomes stifled in an atmosphere of smug oppression. From this sheltered life she finds exhiliration in the mad pursuit of a former sweetheart who willingly renews the chase of earlier days. Ensuing situations bring about a marital deadlock which, through unique treatment of story, culminate happily.

Mrs. Campbell Scores

Mrs. Patrick Campbell, noted British actress, heads the impressive supporting cast at the eccentric dowager. Lilyan Tashman is Norma's sister. Other important roles are in the capable hands of such sterling players as Skeets Gallagher, Ralph Forbes, Arthur Jarrett, Earl Oxford, Helen Jerome Eddy, George K. Arthur, Baby Marilyn Spinnert, Phyllis Cochlan,, Howard Chaldecott and Halliwell Hobbes.

Rheumatic Pain Stopped by Lemon Juice Recipe

Try this. If it doesn't relieve you, make you feel better and younger and happier, your druggist will refund your money. Get a package of the REV PRESCRIPTION. Mix it with a quart of water, add the juice of 4 lemons and take a tablespoonful two times a day. In 48 hours, usually, the pain is gone, joints limber up, wonderful glorious relief is felt. Equally good for rheumatism, or neuritis pain. Costs only a few cents a day. For sale, recommended and guaranteed by all leading druggists. Any druggist will get the REV PRESCRIPTION if you ask him to do so.

COOLERATOR

(Continued from page 1)

of ice. It is said to be the most economical unit yet devised for home use.

The boxes are porcelain and beautifully finished and come in all sizes. Air circulation is made in the food compartment while in the ice compartment there is no circulation thus prolonging the icing dates from 4 to 7 days. They are sold under a most extraordinary guarantee.

AUTO CRASH

(Continued from page 1)

earnestly concerned and solicitous for his welfare and recovery.

Neither of the other occupants of the car were badly injured. They are John Lane Baskin, son of Mr. and Mrs. Roy Baskin; Billie Cooper, son of Mr. and Mrs. Grady Cooper; J. C. Moseley, driver of the car and son of Mr. and Mrs. Curtis Moseley, who escaped uninjured; Charles Roy Law, son of Mr. and Mrs. Roy Law, suffered a severe head injury. Carter Brogdon, son of Mr. and Mrs. S. E. Brogdon, was the fifth member and escaped with minor injuries. All were injured more or less seriously except Moseley.

The boys were on their way to Sugar Loaf Mountain to enjoy the annual picnic of the Seventh Grades.

Late reports indicated that Bobby Casey will survive his injuries.

John Lane Baskin was removed from the hospital Wednesday to his home. Other members of the party were taken to their homes shortly after they were given attention at the hospital.

Infection setting up in the wounds of Bobby Casey, was said to have been arrested and indications point to his recovery. He had spent a more or less disturbing night Wednesday, but seemed improved Thursday.

CARDBOARDS FOR CLOSET

Cardboard fruit jar boxes were used in building a well-arranged and convenient clothes closet by Mrs. Azzie Bell, bedroom demonstrator for the Bryant Station Home Demonstration Club.

A frame work of scrap lumber was made and covered with the cardboard. Shelves for storing bed linen, hats and other articles, as well as a shoe rack and rod for hanging the clothing are featured. The closet papered like the bedroom will give a complete and finished appearance.

TO THE PATRONS OF BURLINGTON PUBLIC SCHOOL DISTRICT

Cameron, Texas, May 15, 1934.

It seems to be the impression in Burlington community that the Cameron School Board does not desire the Burlington pupils of high school age to attend the Cameron High school. This is most emphatically not correct. We do want them to attend our schools and do now, and have always extended a hearty invitation to you to patronize Cameron Schools, and especially Cameron High School. This is your school, as well as our own, and we think it is the logical place for your pupils to attend.

When the contract was made two years ago with a school outside of Milam county for the Bus delivery of Burlington pupils, we find on questioning every member of the Cameron Board at this time, that not one of its members was consulted in the matter nor an opportunity given the Board to consider it. Neither were we given an opportunity this spring, after the two year contract with the other school was out, to present our plea for your patronage, in spite of the fact that we wrote every member of the Burlington Board requesting that we be given an opportunity to consult with them in regard to the matter. We mention these things so that your community may clearly know that the Cameron School Board does earnestly desire to have your boys and girls come to our school and that we are now ready for them whenever it is made possible for us to have them.

Our school this year will graduate 118 boys and girls, and this would not be possible without the support of the outlying districts of such fine communities as Burlington, Buckholts, Marek, Jones Prairie, Maysfield, Milano and others. We believe that we have one of the finest high schools in towns the size of Cameron to be found in Texas, and we know that our schools have a reputation in educational circles that is the envy of cities much larger than ours. This, we are certain, is made possible by the splendid faculty we have, our fine equipment, and the friendly attitude of our Board has always had toward the pupils from the outlying districts that need good educational facilities and find it difficult to provide for them in their home districts.

Whenever the patrons of the Burlington School District desire to send to Cameron, we shall be most happy to receive your pupils.

Respectfully,

CAMERON PUBLIC SCHOOL BOARD

By J. C. MARTIN, President.

South's New Queen

Here is Miss Betty Jameson 15-year-old golf wonder of Dallas, who won the Southern Women's Golf championship Sunday afternoon, by beating Mrs. Leon Wolf, Jr., of New Orleans 7 and 6. (Texas News Photos.)

RALLY

(Continued from page 1)

be admitted at half price to the Milam Theatre, it has been announced by Stanley Swift, owner.

The following program will be rendered: Music by the Cameron Band; Song, "America," Audience; Invocation, Rev. Walter Cannan; Welcome Address, Edwin Kloppe, Detmold; Song, Choral Club, Sandy Creek school, Mrs. Deliah McCoy, director; Declamation, Murrell Hyde, Gay Hill; An Expression of Appreciation, Sarah Jeanette Yeager, San Gabriel; Address, A. J. Lewis, Cameron; Presentation of Diplomas and Awards, Mrs. Kathryn K. Robbins, County Superintendent.

D. A. R.

Sarah McCalla Chapter of the D. A. R. met Thursday afternoon with Miss Erma Porter and Mrs. Bertha Brewer as co-hostesses with a tea in the home of Mrs. E. A. Flinn, and had as guests members of the Cameron Music Club.

Mrs. R. H. McIntosh, regent, gave the welcome address, with Miss Helen Flinn, responding. This was followed with a reading "The Inspiration of Music" by Patsie McGregor. The program of music was in charge of Miss Pearl Clement. Appearing on the program were Misses Lucille Dickard, Katherine Robbins, Dora Emily Moore, Arnet Ryan, Pearl Clement and Mrs. Guy Newton.

Guests were Mrs. Will Ledbetter and Mrs. Willie Razor of Dallas, Mrs. Hamilton Bonnet of Evanston, Illinois, Mrs. J. L. and Tom Denson and Mrs. Eugene Wallace of Cameron.

SOFTBALL

Monday evening Troop 52 was defeated n softball 7 to 4 by the Methodist boys. Horstman pitched for the Methodists who scored all their runs in the first three innings. Juju Matocha pitched five innings for 52 allowing only 1 run. Friday evening at six o'clock 52 has a game with the Methodist men's team.

Mr. and Mrs. W. B. Levy spent a few days in Temple last week visiting friends.

Mr. and Mrs. Burris Jackson Visits Here In Dossett Home

Mr. and Mrs. Burris C. Jackson of Hillsboro were guests in the home of Mr. and Mrs. Stanton Dossett Monday night.

They were returning to Hillsboro from New Orleans where they spent a portion of their honeymoon. Mr. and Mrs. Jackson were married Tuesday night May 8 in Hillsboro. Friends here were pleased to have them visit in Cameron.

Mr. and Mrs. Jackson will be tendered a reception soon in Hillsboro by the Lions Club of which Mr. Jackson is president. He is a young Democratic leader and business man and his recent wedding was of interest to friends throughout Texas and in the north and east.

Scout Encampment to Attract Many Boys From Troop No. 52

After the Pink Pajama Song, Troop 52 sang an old favorite "52 You Are a Wonder," to the tune of "Springtime in the Rockies." This cheery opening faded into the actual realities of business as the Scoutmaster reminded the boys that he would check up on them to see if they are going to be loyal to their State and help collect bluebonnet seeds.

All who can were urged to go to Camp Spicewood Springs near Belton this year. The Heart O' Texas Council is lucky in having one of the best camp sites in the United States in Ye Olde Spicewoode Springs. Then, too, the Catholic boys, during the frst week of camp, will have early Mass every morning.

As a feature, Paul and Rudolph Michalka brought their band instruments and entertained the Troop with some popular music.

The rest of the meeting was devoted to making a contest winner out of one of the patrols. As they went into patrol meetings the Fox patrol was leading the X patrol by 378 to 333. The X gained on the Fox after the week's tests had been turned in, leaving the Fox 488 points to the X's 478. The first game in the contest was a Morse Code Message Relay which was won by the X patrol. The winners were given twenty points and the losers ten, which drew them into a tie. The Fox won in "Passing the Ball" but lost "Steal the Bacon" to the X; and they were still in a tie. So a fifth game was played to decide the winner. This game was a running relay. The Fox ran it in two minutes and fifty-two seconds and the X in two minutes and forty-two seconds and were crowned tournament champions of the second intra-patrol contest in Troop 52 by the presentation of a neat first aid kit.

Two Jurors Who Saved Hamilton From Chai

Here are the two members of the Dallas county jury who prevented a sentence of death for Raymond Hamilton, notorious Texas desperado, at his trial for robbing a Grand Prairie bank. The hung jury was finally dismissed. Hamilton will now be tried in Denton county for robbing the Lewisville bank. The two men who voted against death for Hamilton are H. G. Foster, Carrollton, Texas, farmer, (left) and Charles F. O'Conner of Dallas, unemployed, formerly a shoe salesman. (Texas News Photos.)

Judge L. E. Patterson Buried In Goldwaite

Judge L. E. Patterson, for 28 years county judge of Mills County, was buried Thursday at Goldwaite following his death there on Wednesday.

Judge Patterson was an uncle of Mrs. Lester Glass in Cameron. Mr. and Mrs. Glass and son, Donald, and her father, Ben Miller of Temple, left Cameron Thursday for Goldwaite where they attended the funeral, returning to Cameron Friday.

Judge Patterson was at one time county superintendent of that county. Thousands attended the funeral. He had been active as a citizen and was widely known and revered by the people of that section.

CORRECTION ON DATE

Miss Bertha Fae Strange requests correction on the date for the 4-H community gathering at San Gabriel. The meeting will be held on Friday, May 25 instead of Friday May 18 as previously announced.

Texas with 80 colleges ranks third among the states, and its 46 junior colleges place the state second in that classification.

In the Constitution of Texas it is specified that "The Legislature shall not have the right to levy taxes or impose burdens upon the people except to raise revenue sufficient for the economical administration of the government."

Ralph D. Mahon To Graduate; Only 15 Years and 9 Months

Ralph D. Mahon, Jr., son of Mr. and Mrs. R. D. Mahon of Eastland, Texas, is graduating on May 25 from the Eastland High school as valedictorian of his class.

Young Mahon has the distinction of carrying the highest four year average by any Eastland graduate and is only 15 years of age. He plays golf, tennis and swims. He won two first places in school athletics, and first place in county extemporaneous speaking this year. He is a creditable actor and took part in the recent Senior play.

Mrs. Mahon was Zora Hefley of Cameron. Ralph was born at the Cameron Hospital while his father was in France in the World War.

E. A. Barmore of Maysfield was in Cameron Saturday and visited in the Herald office.

"Now I'm the Picture of Health," Says Lady After Taking CARDUI

Here is how Cardui helped an Alabama lady. . . . "I suffered from pains in my back and sides," writes Mrs. A. G. Gray, of Cusseta, Ala. "I was so thin and weak, I read of Cardui and decided to take it. I noticed at once it was helping me. I kept taking Cardui until I had finished five bottles. I gained. My health was much better. Now I am the picture of health. My color is good and my weight increased." . . . Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

NOTICE
To Car Drivers

There is a state law against children under 16 years of age driving automobiles.

Hereafter this law will be enforced in the city. Under this law a fine may be imposed but I have no desire to impose fines on parents, but will ask that they co-operate with me to restrict auto driving to persons over 16 years of age in the city.

Streets have been marked and I will ask that car owners observe the stop signs and the proper parking of automobiles at the curbs.

Miss Gladys Davis, teacher at Sharp, spent the week end here with her parents, Mr. and Mrs. Judd Davis.

Miss Ethel Collins, teacher at Sharp, spent Mothers' Day here with her mother, Mrs. Max Collins.

Mr. and Mrs. John E. Cooke of Rockdale attended the funeral of James W. Coleman Sunday afternoon.

Mrs. Leslie Green and daughter, Miss Mary Ann Green spent Thursday in Marlin visiting Mrs. Green's Mother, Mrs. J. P. Gott.

Representative Emory B. Camp of Rockdale attended the funeral of James W. Coleman Sunday afternoon..

Claude Gilliland of Austin traveling salesman, paid a business visit to Cameron Wednesday. He formerly lived in Cameron and was salesman in the gents furnishing department of the Cameron Mercantile Company while here.

Mrs. James Neinast and daughter, Miss Bonnell, spent Wednesday in Waco.

Robert Young of Kennedy, son of Mrs. J. Z. Young, visited his mother a couple of days last week.

Montague Triggs of Houston spent Sunday here with his parents, Mr. and Mrs. Albert Triggs.

Mr. and Mrs. Jack Herrell of Gladewater, visited his mother, Mrs. Lola Hearrell for the week end.

John Young, son of Mrs. Dallie Young, who graduated from the Danforth School of Pharmacy at Fort Worth, was one of the thirty out of the class of 200 students who stood the state examination, and passed. He has accepted a position in a drug store in Archer City and left for that place last week.

Mrs. Lena Baskin and daughter, Miss Dinks Baskin, Mrs. Frank Monroe, Mrs. W. A. Bonds and Mrs. Alex Triggs spent Wednesday in Waco.

Mr. and Mrs. Henry Hefley spent Mothers' Day in Austin, going by way of Georgetown where they were joined by their daughter, Miss Henriem Hefley, student in Southwestern University, and drove to Austin where they were joined by her sister, Mrs. Hulen Carroll and husband, Dr. Carroll of San Antonio and spent the day with Mrs. Carroll's son who lives in Austin. Mrs. Carroll accompanied them to Cameron for a short visit.

Dr. Leland Denson of Cranfils Gap, visited his parents, Dr. and Mrs. John L. Denson Tuesday. Dr. Leland had been to Giddings where he attended the funeral Monday of his wife's father, Dr. Johnson.

Mrs. Louis Gohmert of Cureo visited her son, L. F. Gohmert and family for the wee end.

Mrs. Willie Rayzor, who has been visiting her sisters here for several weeks, has returned to her home in Dallas. While here visited Mrs. W. E. Gaither, Mrs. James Watson and Mrs. J. M. Bowman.

Charles Brady of the B. & B. studio spent Wednesday in Rosebud where he went to take pictures of one of the largest graduating classes of the school.

Mr. and Mrs. Grady Stidham and family visited friends in Waco Sunday.

Exploding Boiler Hurtles Alley to Kill Two Tylerites

Here is what happens when a cleaning plant boiler explodes. The picture was taken at Tyler, Texas, and the boiler catapulted through the wall of the plant across a 12-foot alley and into another building, killing Miss Lucy Lee Andrews and William Pope. These were the only fatalities of the queer tragedy, although several others were severely injured. Authorities are investigating to determine the cause of the blast. (Texas News Photos.)

Mrs. Pope Sapp and Mrs. Penn Wolf visited friends in Waco last week and accompanied them to San Antonio for a visit with friends.

Mr. and Mrs. James Watson visited relatives in San Antonio and Houston last week.

Miss Gillette McKinney of Jones Prairie has been visiting her aunt, Mrs. J. D. Baskin.

Dr. and Mrs. A. S. Epperson enjoyed a family reunion of their children on Mothers' Day. Mr. and Mrs. A. R. Epperson and Ted Epperson of Fort Worth, L. J. Epperson of Jacksonville, Mr. and Mrs. Stewart Epperson of Lake Charles, Louisiana and Bentley Epperson of Cameron.

Dr. and Mrs. B. Franklin of Austin spent Mothers' Day here with her parents, Mr. and Mrs. Hugo Slaughter.

Miss Clyde Baskin, teacher at Bartlett, was here for Mothers' Day guest of her mother, Mrs. Lena Baskin.

Gause will be host to the Marlin District Conference of the Methodist church Tuesday May 22. The conference will be presided over by Dr. E. L. Ingrum, presiding elder and will open at 9 a. m.

"An Old Fashioned Mother" in 3 acts was presented at the First Christian Church last week. Miss Grace Eplen directed the play. Mrs. Gladys Watson took the part of Mother, and was ably supported by the following cast: Lorene Wade, Helen Swift, Verna Beth Beard, Elaine Young, F. E. Jackson, Jr., Vernon Slocomb, Garland Beard, Frank Adams, Billie Moore, Thad Bailey, Hubert Luckett. In the chorus were Mrs. W. G. Harsha, W. A. Bonds, Dan Tyson, Mac Maples and W. I. Clark who gave violin accompaniment.

Mr. and Mrs. Lester Glass and her father, Ben Miller of Taylor, attended the funeral of Judge Lon Patterson at Goldwaite last Thursday.

Mr. and Mrs. Ed Slater, former citizens of Cameron, who are now living at Bay City, attended the funeral of James W. Coleman Sunday.

The following members attended the W. B. A. rally held in Temple last Thursday: Mesdames Gene Muse, Crouch, Annie Henrischen, R. L. Williams, A. E. Sharpe and Lottie Bigbee.

CARD OF THANKS

We take this method of extending our sincere thanks to our neighbors and friends for their kindness to us during the recent illness and death of our beloved mother, Mrs. Paulina Matula. We are grateful for your words of sympathy and comfort. We thank those who gave flowers and all who in any way assisted us.

The Family.

Mr. and Mrs. Carl Black spent Mothers' Day in San Antonio with his mother.

Mrs. W. T. Mowdy is visiting a brother in Plainview. She also visited a brother, Dr. Libbie and family in Hubbard.

Mr. and Mrs. Ed. Slater of Bay City visited in Cameron last Saturday and attended the funeral of James W. Coleman. They formerly lived in Cameron a number of years ago.

Al Massengale of Maysfield, member of the Democratic Executive Committee from that precinct was a busines visitor in Cameron Saturday.

Roy Storrs, former business man here, was in the city Saturday from his farm on Milano, Route 1. Mr. Storrs says the past few years have been the most happy of his life. He finds time for thought and reflection in the solitude of farm life. He is writing much material for his family to read in later years. Mr. Storrs has written a number of poems and articles embodying good philosophies.

Mr. and Mrs. P. L. Bergum of Vogelsang were visitors in Cameron Saturday.

PRESBYTERIAN AUXILIARY

Members of the Presbyterian Auxiliary met in circles Monday afternoon.

Circle number one met with Mrs. O. C. Acrey. Mrs. James Watson had charge of the program. Mrs. Dan Tyson gave the devotional.

Mrs. Giles Avriett was hostess to circle two Monday afternoon. Mrs. Sam Henderson had charge and Mrs. Walter Lawrence brought the devotional. A short business session was held.

Mr. and Mrs. William R. Rogers enjoyed a reunion of the children on Mothers' Day. Mrs. Ronshausen of Port Arthur and Reed and Kenneth Rogers of Houston were here.

P. T. A. MEETING

Regular monthly meeting of the local Parent-Teachers Association will be held Thursday afternoon at the Ada Henderson school. Mrs. W. R. Hoover will preside.

WHO SAYS THERE'S NO DIFFERENCE IN MOTOR OILS?

These people tested Gulf-lube against famous 25c oils—Now read what they say . . .

Mr. Lewis T. McIntosh, Brooklyn, N.Y.—Studebaker owner.

Mrs. Lee Ketner, Winston-Salem, N. C.—Chrysler owner.

Mr. J. D. Bowden, Atlanta, Ga. Plymouth owner.

Each of these motorists made two trips to some distant point.

ON the first trip they used one of the well-known 25c oils . . . On the second trip they used Gulf-lube. And Gulf-lube cut their oil consumption *from 24% to 51%!*

Switch to Gulf-lube—the oil that beat 3 other famous 25c oils in the AAA Indianapolis "high-mileage" test. Pare down oil costs . . . get better lubrication! 25c a quart.

Chevrolet Sales Top 100,000 Mark First Time In Three Years

Detroit, Mich., May 10.—For the first time in three years, sales of an automobile manufacturer for a single month topped the one hundred thousand mark. This was brought out today in a statement issued by William E. Holler, general sales manager of Chevrolet Motor Company, announcing retail sales of Chevrolet passenger cars and trucks during April of 100,046 units. This figure includes Canadian, export and domestic deliveries.

This compares with 59,193 units in April, 1933, and 96,893 units in March of this year, according to the statement.

Retail sales for the first four months of this year totaled 281,033 as compared to 184,138 in the same period a year ago, an increase of 52 per cent.

Chevrolet's retail sales record is considered significant in view of the fact that this company has suffered an acute car shortage, practically since the new 1934 models were introduced and only now is catching up in a small measure with the thousands of unfilled orders on its books. Retail sales were higher than for any similar period in 35 months, since April, 1931, to be exact, and this tremendous retail volume, according to Mr. Holler, is the direct result of the modern features and many unusual improvements incorporated in the 1934 knee-action models.

Mr. and Mrs. Giles McDermott attended the horse show given at A. & M. College Saturday. Thirteen classes of horses gave exhibitions, including saddle and other gates. They were accompanied home by John Sumer Batte student at A. & M. who spent Mothers' Day here with his mother, Mrs. Dick Batte.

Don't Take Unknown Drugs

Doctors throughout the world agree there is no greater folly than to buy and take unknown drugs. Ask your own doctor.

So—when you go into a store for real Bayer Aspirin, see that you get it.

Remember that doctors endorse Genuine Bayer Aspirin as SAFE relief for headache, colds, sore throat, pains of rheumatism and neuritis, etc.

Just remember this. Demand and get Genuine Bayer Aspirin.

Genuine Bayer Aspirin does not harm the heart

Endemic Typhus Disease Carried by Common Mite

The source of endemic typhus contagion was first established by the public health service in 1929, with experiments on rats captured about Baltimore warehouses, in a district where the disease had been prevalent. Hitherto the disease had been confused with the European fever, which is usually spread by body lice in army camps, jails and crowded slums.

The public health service doctors found that the American form, which often broke out in sanitary homes, was spread by rat fleas, that the fleas transmitted the virus from rat to rat and that fleas who fed on the infected rats gave it to humans. Since then Department of Agriculture scientists have found it may also be transmitted by a common mite which infests rats.

The fight against these mammal-insect carried diseases, a comparatively new class of fevers which has come into prominence in the past few years, now is one of their major problems. They include the dreaded spotted fever. Endemic typhus is a milder malady than the European typhus, but still it has a mortality rate of 25 to 35 per cent when it breaks out in areas of undernourishment and crowded conditions.

It is estimated that the Norway rat alone—which may have been brought to North America on the open ships of the Norsemen—causes an annual damage in the United States of approximately $250,000,000, or close to $2 per person.

Pipes Afford Record of Indian, English Styles

A collection of rust-eaten relics of Capt. John Smith's 1607 colony on Jamestown island, the first permanent English-speaking colony in the New World, is displayed by the Smithsonian institution.

Among the relics are tobacco pipes of the so-called "church deacon" design with the small bowl almost continuous with the stem, like a cigar holder with the end tilted slightly upward. Some in the collection were clearly of Indian workmanship, while others had been made in England, according to the Smithsonian Institution Bulletin.

But the English had missed the trick of pipe making, although their products were superficially indistinguishable from those of the aborigines. The Indian practice was to mold the clay stem around a hollow reed, with the result that there was a large, clear channel for the smoke. The English pushed a small wire through the wet clay to form the channel, resulting in a small hole which must constantly have become clogged. The pipes afford a curious instance of the overlapping of two cultures—the borrowing of an idea by one people from another and the return of the borrowed idea to its original home.

Nitrogen

In ordinary circumstances nitrogen is somewhat inert, but Henry Cavendish discovered in 1785 that it unites with oxygen when electric sparks are passed through a mixture of the gases and W. F. Donkin later obtained ammonia by the action of a silent electric discharge on a mixture of nitrogen and hydrogen. In 1828 Desfosses found that a cyanide was produced when nitrogen was passed over a heated mixture of carbon and alkali or alkaline carbonate. Finally the fixation of nitrogen was made possible by the discovery of Marguerite and Sourdeval in 1860 that barium cyanide is formed by passing nitrogen over a heated mixture of carbon and baryta, which compound gives ammonia on heating strongly in steam.

Cup First Given in 1851

The America Cup, outstanding trophy of yacht racers, first was offered in 1851 by the Royal Yacht Squadron of England. It was won by the America, a yacht built in this country. The American yachts have maintained their superiority, largely because they have been built especially for racing purposes, while the British challengers usually sought to combine cruising and racing features. The long bow and flat sails of the America were popular until 1891 when the Gloriana won all her races built with overhangs which appeared decidedly advantageous.

Attraction of Earth

It has been calculated that were an object to be thrown from the earth with a velocity of five miles per second it would leave the earth entirely and become a satellite of the earth. If the velocity were increased beyond five miles per second the object would continue to revolve around the earth in an elliptical orbit whose width would increase with the velocity until a velocity of seven miles a second was recorded, when the object would fly off on a parabolic curve, escaping the attraction of the earth and becoming a satellite of the sun.

"Cork Legs"

Although cork has some 150 important uses, the familiar "cork leg" used in amputation cases is not manufactured of the material for which the limb is named. Artificial limbs, both legs and arms, are made of willow wood, with leather, steel and rubber parts added. There are many fables about how the name "cork leg" originated, one of which was that artificial limbs were first manufactured in Cork, Ireland. Another is that they were given the name by limb manufacturers on Cork street, in London.

Professor Sings

Dr. Newton Gaines of Texas Christian University (pictured above) flew to the National Folk Festival in St. Louis to sing Texas cowboy songs. He is head of the physics department at the Fort Worth school and collects and sings cowboy songs as a hobby. Dr. Gaines is past president of the Texas folklore society, and has made recordings of Texas songs. (Texas News Photos.)

AD HALL

Misses Margaret and Bertha Marek were on the sick list last week, but are improving now.

Mr. and Mrs. Frank Marek and family attended church in Cameron Thursday.

The Ad Hall school closed Friday and at night a program and graduation exercises were held. Judge Gillis of Cameron addressed the class. He made a very interesting talk. Those receiving diplomas were Misses Fannie Powell, Margaret Marak, Mary Gerick, Rosa Lee Michalka and Hubert Horlica.

Mr. and Mrs. W. M. Hudson and daughter, Miss Irene, of Heidenheimer attended the closing exercises of the Ad Hall school Friday night May 11.

Mrs. D. K .Hall and daughter Marion and Mrs. Bain spent Saturday in Taylor.

Miss Lillie Anderle visited in the home of Mr. and Mrs. Anderle and family.

Mr. Fred Jistel and family of Marak visited Mr. and Mrs. Will Anderle and family recently.

Alvin Anderle visited Carl Hertenberger.

Adolph, Carl, Gertrude and Rosenia Hertenberger attended a dance Sunday night.

Theresa Anderle visited Gertrude Hertenberger recently.

Erma, Ellie, Hubert Matthews, Halma Anderle, Lenora Dueser and Rose Lee Michalka were Buckholts visitors recently.

Jerry, Laddie and Adella Kostecky and Bessie Lazek made a business trip to Buckholts recently.

Frank Pfreaschear visited Herman Gerick Sunday.

Hubert Horelica, a graduate of the Ad Hall High school, where Mr. J. O. Hughes was principal, was given a surprise party Saturday night May 12. A large group of friends gathered to surprise him. Nearly all the pupils of his room, all of his class and teacher, Mr. Hughes, were present. Many friends outside of the school were present. Various party games were enjoyed outdoors. Refreshments of kolaces, sandwiches, cakes, cookies and orange tea were served. After the refreshments he unwrapped and showed to his friends the nice and useful gifts he received from different friends.Aamong the guests of the party were Mr. and Mrs. M. L. Worcester, Mrs. Verna O'Bryant and Mr. Donald Coleman of Edinburg, Texas.

Ad Hall Home Demonstration Club met with Mrs. Frank Marek May 11. Subject was Beautifying the Pantry. Miss Strange gave a demonstration on how to make marmalades. First was orange marmalades: 2 oranges, 3 lemons, 1 cup hot water, 3 cups carrots, 1-2 teaspoon salt, 4 cups sugar, 1 small piece root ginger. Add sugar to hot carrots, then oranges. Boil carrots in the hot water until slightly tender. cut orange peeling into strips then grind the other half. Process 15 minutes in hot water. When making marmalades, the oranges, lemons or grape fruit must be cooked in hot water until tender.

There were 12 members present. The next meeting will be at the Ad Hall school house May 25.

Preaching next Sunday night by Rev. P. L. Caperton. Song service begins at 8 p. m. Preaching at 8:15. Everyone invited.

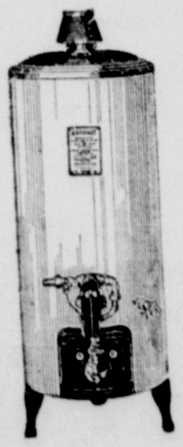
No Waiting for HOT WATER

A good hot bath cleans better. Followed by a dashing cold shower it becomes a spring tonic—and a good one! But, if the faucet marked "hot" only runs cold or luke-warm water it is a good sign you need a modern automatic gas hot water system. Here's a chance to have one at a worthwhile saving!



SWAP FOR RUUD AUTOMATIC

"Hot" faucets will not run cold water with a new Ruud installed. It supplies hot water instantly! Because of stock reduction sale you can own one for mighty little down and unusually small monthly payments. In addition there's a liberal trade-in allowance and an extra discount for cash.

Simmons University Entertains 1,500 Seniors

More than 1,500 high school seniors from sixty-two West Texas towns were entertained in the first "Senior Day" at Simmons University, Abilene, Texas. The program included a physical culture demonstration (upper photo), a barbecue (lower photo), music and plenty of oratory. (Texas News Photos.)

Black-Draught Brings Refreshing Relief of Constipation Troubles

Constipation produces many disagreeable sensations, several of which are mentioned by Mr. T. E. Stith, of Boonville, Ind., who writes: "I have used Thedford's Black-Draught many years when needed for biliousness and other minor ills when a laxative was needed. I have a tight feeling in my chest when I get bilious. I get dizzy and feel very tired, just don't feel like doing my work. After taking Black-Draught, I feel much better. This is why I continue to use it when needed." . . . Thedford's Black-Draught is a good, purely vegetable laxative, obtainable for 25¢ a package.

SHOCK-PROOF STEERING

Drive it only 5 miles and you'll never be satisfied with any other low-priced car

DEALER ADVERTISEMENT

WHY do you suppose Chevrolet keeps repeating, in all of its advertising, "Drive it only 5 miles"? Here's the reason: Chevrolet engineers have tried out all the various makes of cars in today's low-price field. And they have proved to their complete satisfaction, the same things that hundreds of thousands of Chevrolet owners are proving in their daily driving: How much more *smoothly* a car travels with genuine, fully-enclosed Knee-Action. How much more *comfortably* it handles, with shock-proof steering. How much more restfully you ride, in a Fisher Body car. How much more safely you drive, with *cable-controlled brakes*. And how much finer performance and better economy are secured from an overhead-valve Six! In other words, Chevrolet engineers *know for sure* that the Chevrolet ride simply can't be matched by any other in the low-price field. *They* know it—thousands of owners know it—*and now we want you to know it too*, before you make your final choice of a low-priced car.

They're *Paid*

to be dissatisfied with telephone — — service

The men and women who furnish your telephone service here could not do their job so well without the help of Bell Telephone Laboratories, research organization of the telephone service. . . . .

Four thousand workers in Bell Telephone Laboratories, the research organization of the telephone service, search constantly for scientific short-cuts and inventions that will give you better telephone service at a low cost.

They have, through their researches, made it possible for you to talk across continents and seas. They have made a single long distance line carry four simultaneous conversations. In scores of ways, they have contributed to the quality and clearness of your local telephone service.

Bell Laboratories is one of a specialized group of organizations that serve the 24 Bell operating companies, of which the Southwestern Company is one. It plays an important part in giving *you* good telephone service at a fair cost.

This is a fundamental Bell System policy. Back of it is our belief that in an undertaking planned, like the telephone service, for the long pull, what is best for the telephone user becomes in the end the policy that will bring us the sounder, more enduring success.

Mesa Verde Tells Story of an Old Indian Race

In Colorado there is a mesa, a place of mystery and enchanting beauty. Rising from the surrounding plain it towers, a gigantic plateau like a huge, unscalable fortress.

Thus it appears today, and thus, also, must it have appeared to the first Indian bands who, driven by hostile tribes from their southern valleys and plains, sought habitation and peace on the mesa top and in the embrace of its canyons.

They came there, prospered for some four thousand years and departed, leaving behind them the relics that tell one of the most fascinating stories of the past. This is Mesa Verde, wisely set aside as a national park, says an information bulletin from Nature Magazine of Washington, so this great monument of an episode in a bygone age may be preserved.

To those Indians who first made this mesa their home, nature was kind for many centuries. From the river to the south they took granite boulders and fashioned granite axes. With these they hewed blocks from the cretaceous sandstone of the canyon walls, stuck them together with puddled earth and developed the art of masonry.

Crude shelters became complex houses, embossed like cameos on the cliff's very face, protected by the overhanging mesa above, and by the sheer descent below.

Roofs and floors were made from pinyon, juniper and Douglas fir found on the mesa. Mountain mahogany and scrub oak furnished sticks for their crude planting and handles for stone tools. From the forests and brush flats they chose shafts for arrows, bows, fire drills, weaving looms, ladders and cradles. There was firewood in plenty, and, most important of all, there was enough of the four kinds of wood needed for the sacred fires.

The Indians produced a pottery of as fine a texture and temper as any prehistoric American pottery ever found.

Bee's Stinging Muscles Cause Three Movements

When a bee stings you, she uses 22 muscles to carry through three distinct movements of her weapon. So says the United States bureau of entomology, in a report on the morphology of the insect abdomen issued by the Smithsonian Institution. The first movement thrusts the sting out, the second swings it downward, and the third works the little lancets that bury the sting in the victim's flesh.

The sting of a bee or wasp is a modified ovipositor or egg-laying organ, and the poison-sac that supplies it with its peculiarly painful ammunition is one of the active accessory sex glands. The idea that a bee "feels around" for a favorable place to thrust home its dagger is a fable. Stinging is largely an automatic art. When a bee "sits down" on its victim, "the highly mobile abdomen swings around in all directions and the decurved tip strikes at random until an object is encountered which, if nothing else presents, may be the body, head or mouth of the bee herself."

U. S. Annexations

Nearly a third of the territory of the continental United States was once a part of Mexico. It was acquired by the United States in three annexations. The first was when Texas, which had rebelled from Mexico and set up a separate government, was annexed to this country in 1845. The question of the Texas boundary led to the Mexican war, at the conclusion of which our southern neighbor ceded everything north of the Rio Grande and Gila rivers. In 1853 this country settled a number of questions of boundary, property and damages by purchasing an additional strip of southwestern land from Mexico—the Gadsden purchase. Included in these three cessions were all of the states of Texas, New Mexico, Arizona, Utah, Nevada and California, more than half of Colorado and parts of Oklahoma, Kansas and Wyoming.

"Averse" and "Adverse"

Averse, from the Latin aversus, alienated, is derived from avertere, to turn away, and is applicable only to beings of consciousness and will, and that in reference to their inclinations and tastes. We are adverse to that which we disapprove, but averse to that which we dislike. We are averse to what is opposed to our reason, or to that which is uncongenial to our tastes. We are averse also to entering upon such courses or taking such steps as we may feel to be objectionable on any account whatsoever. In addition, we are averse to actions, conduct, or occupations that are foreign to our nature, or to which we do not take. Few cats are averse to fish.—Literary Digest.

Captivity Agrees With Vultures

Despite the fact that in its natural way of living the vulture spends much of its time soaring high in the air, captivity has been found to agree with these birds remarkably well. Specimens living in menageries have been known to attain an age of thirty or forty years, which is undoubtedly a greater age than they are likely to reach under normal conditions. Commenting on this fact, a zoo correspondent for the London Observer remarks that the instinct of most animals is to lounge rather than to work, so long as they are kept well provided with food, and that the vultures don't mind having freedom restricted so long as they do not have to work for a living.

MARLOW

Mr. and Mrs. Elwood Kirk and family and Mr. and Mrs. Vinson Hardwick spent Sunday with relatives at Liberty.

Mrs. Rea Stein of Cameron spent several days this week with Mrs. Dora Coward.

Mr. Leslie Boatright of Curry and Mr. W. H. McCormick of Rogers spent Sunday with Mr. and Mrs. J. E. Boatright

Mrs S. B. Short and son, Spencer, and Mrs. Minnie Lambkin visited their brother, Charles Posey of Thrall Sunday, who is ill.

Mr. Albert Mode of Maydelle spent the week end with his parents, Mr. and Mrs. E. I. Mode.

Mr. and Mrs. Monta Coward and son and grandmother and Mr. and Mrs. John Hairston attended the nurses graduation exercises at the Cameron Hospital Saturday night.

Carl Hayes, Jr. spent Sunday with his parents Mr. and Mrs. Carl Hayes of Temple.

Mr. and Mrs. E. E. Allison and family spent Sunday with Mr. and Mrs. Lloyd Sanford of Minerva.

Garner Hairston of Bastrop spent the week end with his parents, Mr. and Mrs. John Hairston.

Mr. and Mrs. Jimmie Coward and family of Temple spent last Sunday with relatives here.

Mr. and Mrs. Woodum and family of Hoyte spent Sunday with Mr. and Mrs. Theo Burnett.

Mr. and Mrs. Jesse Coward, son, Mrs. Rea Stein and Virgil Coward of Cameron, Mrs. Leslie Boatright of Curry, Mr. and Mrs. Hugh Edmondson of Minerva, Mr. and Mrs. Monta Coward and son and Grandmother Hairston and Mary Mode were visitors in the Coward home Sunday.

The Marlow school will close Friday May 20. The Baccalaureate services will be held Sunday. Rev. Leonard Darby will preach the sermon. The graduation exercises will be held Monday night. Everyone invited.

Mr. and Mrs. Carl Black spent Mothers' Day in San Antonio with his mother.

Pictured are booths of the Texarkana producers' curb market, a home demonstration project of Bowie county, Texas. Farm products sold in this market last year yielded more than $30,000 income. Home demonstration club women sell garden products, home canned goods, flowers, needlework, fruits and rugs. This is one of several club markets in Texas which are making thousands of extra dollars for Texas farm pocket books

MELLOWED BY AGE
Enriched by Tradition

Fine beer can't be made over night. Behind fine beer must be age—and tradition. BUDWEISER is richly endowed with both. Anheuser-Busch began brewing in 1859. BUDWEISER was created in 1876. Its unforgettable quality was so outstanding that in the International Exposition in Paris in '78 it won first honors from all the brews of the world. It was awarded the gold medal at the World's Fair in Philadelphia in 1876, at Amsterdam in 1883, at New Orleans in 1885 and Chicago in 1893. BUDWEISER's greatest distinction never has been matched by any other brew anywhere—the biggest selling bottled beer in history.

CANNING HOME FOODS

By BERTHA FAE STRANGE

Home Demonstration Agent, Milam County

Improvement in the quality of home canned food is the goal set by the farm women of Milam county. To accomplish this work some thought on the method of canning is necessary. Fruit, tomatoes, pimientoes and pickled beets may be canned by heating for a definite period of time in boiling water. This method is known as the water bath. For the non-acid vegetables such as beans, peas, corn, asparagus, greens, okra, pumpkin, beets, squash, carrots and sweet potatoes, must have a higher temperature and a longer heating. The steam pressure of pressure cooker is recommended.

For either method the tin cans or glass jars may be used. Many families use glass for fruit, fruit juice, tomatoes, pickles and preserves and tin cans for vegetables and meats. The jars and cans should be selected in sizes to serve the family. Miss Lola Blair, Extension Food Specialist, makes the following recommendations as to the size of containers: For the family of two, half pint jars or No. 1 cans; for four or five, pint jars or No. 2 cans and for six or eight, quart jars or No. 3 cans. There are some exceptions to this rule. Corn and greens are recommended canned in No. 1 or No. 2 or quart jars.

(Next week suggestions as to the use of glass jars in food preservation will be given).

NOTICE OF SHERIFF'S SALE OF REAL ESTATE

NOTICE IS HEREBY GIVEN That by virtue of an order of sale issued by the Clerk of the District Courts of Dallas County, Texas, on the 2nd day of May, 1934 in a certain cause wherein Bankers Life Company, a corporation, is plaintiff, and John Ermis, John Zajicek, Stanley Posival, Mrs. Joe Zajicek, Joe Zajicek, Annie Zajicek, Sylvia Zajicek, Caroline Zajicek, Mary Zajicek, the Unknown Heirs of Joe E. Zajicek, deceased, Anton Fritz, Frances Fritz and Buckholts State Bank are defendants, No. 6030-E, plaintiff recovered judgment against the defendant John Ermis for the sum of $4895.61, with interest thereon from March 31, 1934, at the rate of ten per cent per annum, and costs of suit, which judgment was rendered on March 31, 1934, in the District Court of Dallas County, Texas, for the 101st Judicial District of Texas, I have levied upon and will, on the first Tuesday in June, 1934, same being the 5th day of said month, at the Court House door in the City of Cameron, Milam County, Texas, between the hours of ten o'clock A. M. and four o'clock P. M., proceed to sell to the highest bidder for cash all the right, title and interest of said defendants, or any of them, in and to the following described real estate, levied upon May 5th, 1934, as the property of said defendants, to-wit:

Situated in the County of Milam, State of Texas, being 100 acres of land, located about one and a half miles west of Buckholts and eleven and one-half miles west of Cameron, known as the Ermis farm, being a part of the Jose Antonio de Pena Eleven League Grant, Abstract Number 43, and being Tracts Numbers 3 and 4 of the Subdivision of the M. Ermis 521 acre tract of said Survey, and being the same land fully described in deed of trust from John Ermis and Annie Ermis, his wife, to G. W. Fowler, Trustee, dated January 15, 1926, and recorded in Volume 58, page 478, of the Deed of Trust Records of Mlam County, Texas.

The above sale will be made by me to satisfy the above described judgment, and the proceeds thereof will be applied to the satisfaction of said judgment.

L. L. BLAYLOCK, Sheriff of
Milam County, Texas.
By J. R. Robinson, Deputy.

DOCTOR E. W. LYON, Dentist,
522 East Genesee Ave., Saginaw, Michigan.

LINK AROUND WORLD TELEPHONE SERVICE

Last Gap, Between U. S. and Tokyo, Nears Completion.

Washington.—Around the world telephone conversation, linking men's voices in every important capital and commercial city is imminent, according to engineers.

Already the earth is completely inclosed by chains of telephone connections. From the United States men talk across the Pacific with Manila and across the Atlantic through Amsterdam, Berlin or Brussels to Manila again or eastern oceanic points.

But working connections through Tokyo and Shanghai to the United States and Oceania are still needed to provide the links between the last great centers of population.

Tokyo Link Being Speeded.

The principal missing link—between the United States and Tokyo—is rapidly being forged and probably will fit into the chain before the end of the year, according to engineers here. Some authorities expect it within two or three months.

"Tests have been conducted between the United States and Japan for about a year, indicating the prospect of regular service in the near future," Stanley Shoup, communications expert in the Department of Commerce, said.

During the last twelve months the United States opened telephone communications either for regular or special occasions with Russia, Venezuela, Manila, Guatemala, Panama, Costa Rica and Nicaragua. Earlier it opened communications with virtually every nation in Europe and South America and even with South Africa.

In all, 52 nations are in telephone contact with each other, and every nation having more than 100,000 telephones, except Japan and China, is in part of some worldwide chain.

Work on Java Connection.

In addition to perfecting the connection between the United States and Japan, Japanese and Dutch engineers are perfecting the link between Tokyo and Bandoong in Java, which is the terminus of two chains to Europe and a junction between Europe, Australia and New Zealand. Manila and Bandoeng are connected already.

All this development has come since March 10, 1876, when Alexander Graham Bell conversed in Boston with a companion seated in another room a few feet away. Most of the American international telephone development has occurred since 1922, when only Cuba and Canada were linked with the United States.

House of Lords Amazed at Convicts' Impudence

London.—Dartmoor prison has long been reckoned one of the toughest of British penal institutions. The prisoners mutinied there in 1932.

Now the bishop of Exeter thinks the trouble is that they do not have compulsory attendance at Sunday service.

Instead of going to chapel, the convicts lie on their beds and read novels, the bishop told the House of Lords. Rude songs were sung at the prison concerts, he charged.

Out of a total of 200 Church of England prisoners, the Sunday congregations often numbered only five, said the bishop.

And the growing tendency towards impudence in modern crime is reflected in the conduct of the prisoners. The prison chaplain received a threat that if he didn't make the concerts more amusing the prisoners would get him dismissed, said the bishop.

The bishop himself withdrew his application to hold a service for the inmates after the mutiny, when the governor told him that he could not be responsible for his safety.

Marsh, Once Large Lake, Yields Steamboat Relics

Horicon, Wis.—Horicon, at one time the site of the largest artificial lake in the country, upon which steamers navigated daily, has yielded up a number of old relics. In the exact center of the marsh, now a game preserve, bits of wreckage have been found which were identified with ships scheduled to arrive in port fifty years ago. In one spot parts of a large boiler surrounded by blocks of quarried stone indicate the conclusion of one voyage.

Two other vessels are known to have gone down in the lake. One, a scow, sank in July, 1857, when lightning struck it during a hurricane, killing three of the crew and seriously injuring the remaining thirteen. The other disaster occurred two years later, when the boiler of the steamer Winer exploded, killing two.

Student Drinking Drops With Dry Law Repeal

Milwaukee.—With the advent of repeal, student drinking has decreased noticeably, in the opinion of Charles Cobeen, manager of the student union at Marquette university. His reason is that most students find the new liquor system a bit beyond their means.

Father Dies in Dance of Joy Over Son's Birth

Wheeling, W. Va.—"It's a boy!" a beaming nurse told John Ward, thirty-two, in a hospital here. Overcome with joy, Ward capered about the corridor. He slipped, fell, and fractured his skull. A few hours later, before he had seen his son, he died.

Don't Sleep On Left Side—Affects Heart

If stomach GAS prevents sleeping on right side try Adlerika. One dose brings out poisons and relieves gas pressing on heart so you sleep soundly all night. At Leading Druggists.

GOOD CHEER BRIDGE CLUB

Mrs. H. H. Stedman was hostess to the Good Cheer Bridge Club Tuesday afternoon. Beautiful flowers adorned the home, making a delightful setting for the gathering players. Games closed with Mrs. Gus Evans making highest score for club member sand Mrs. Lester Glass making second highest. Mrs. George McGehee made highest for visitors

Following the games the hostess served a salad plate with ice tea

Election of new officers for the club resulted as Follows: President, Mrs. Roy Griffith; Vice President, Mrs. W. T. Whatley; Reporter, Mrs. R. E. Sharpe.

Robert Browning, printer at The Cameron Herald, visited in East Texas Saturday. He went with Calvin Markham, who went on business.

Miss Mozelle Bigbee, who teaches school at Baileyville, was accompanied home Friday afternoon by two of her students, Dorothy Cunningham and Esther White.

J. W. COLEMAN

(Continued from page 1)

Furniture Company and the Coleman Funeral Home with his son, James L. Coleman, Jr. his associate. He formerly shared partnership in the business with J. D. Eplen who retired about three years ago.

Mr. Coleman was married to Miss Willie McKinney December 23, 1896 and had made his home in Cameron. For the past 22 years he had been engaged in the furniture business. Since February 1, 1934 he had been confined to his home where he had received constant medical attention and was tenderly cared for by his wife and children.

During his illness he was hopeful and patient, characteristic of the man. He was a strong character and he left an impress upon the community and reared a monument in the memory of his friends and neighbors. He was a man firm of conviction and was admired for his many stable qualities.

Mr. Coleman had served Cameron as an Alderman at one time and was a leader in the Commercial Club, having served several terms as its president. He was a member of the Knights of Pythias and a Baptist by faith.

Funeral services were held Sunday afternoon, May 13, 1934 with interment in Oak Hill cemetery. Directors for the Coleman Funeral Home had charge of the funeral arrangements. The body lay in the home until Sunday afternoon at 3 when it was conveyed to the Baptist church where services were held conducted by Rev. N. D. Timmerman, assisted by Rev. O. C. Acrey, pastor of the Presbyterian church.

The funeral was attended by friends from over the state and county. The male quartet of the Baptist church sang "Abide With Me," and Mrs. A. J. Triggs sang "Beautiful Isle of Somewhere." Robert Smith played the funeral march on the piano.

Surviving Mr. Coleman are his wife, three children, Mrs. Earl Evers of Cuero, James L. Coleman of Cameron and Mrs. W. T. Faulkner of Whitney, all of whom were here during his illness and present at the funeral. Other relatives were his sisters, Mrs. J. L. Hamilton of Sinton, Mrs. Sam Shelton of Fort Worth. Other relatives and friends from out of town were: Mr. and Mrs. Paul H. Medsker of Shawnee, Oklahoma, Mrs. Jeff Davis of Center, Mrs. J. B. McKinney of Waco, Mrs. John Coleman and Dr. Lil Roberts of Fort Worth, Mr. and Mrs. Ed Slater of Bay City.

Pall bearers were: John B. Henderson, W. A. Bonds, Oxsheer Smith, J. L. Barmore, Judd Davis, O. L. Kidd, Rush Thomas and Hilry Stedman.

Beautiful flowers covered the lot giving evidence of esteem he was held by many coming from out of town friends.

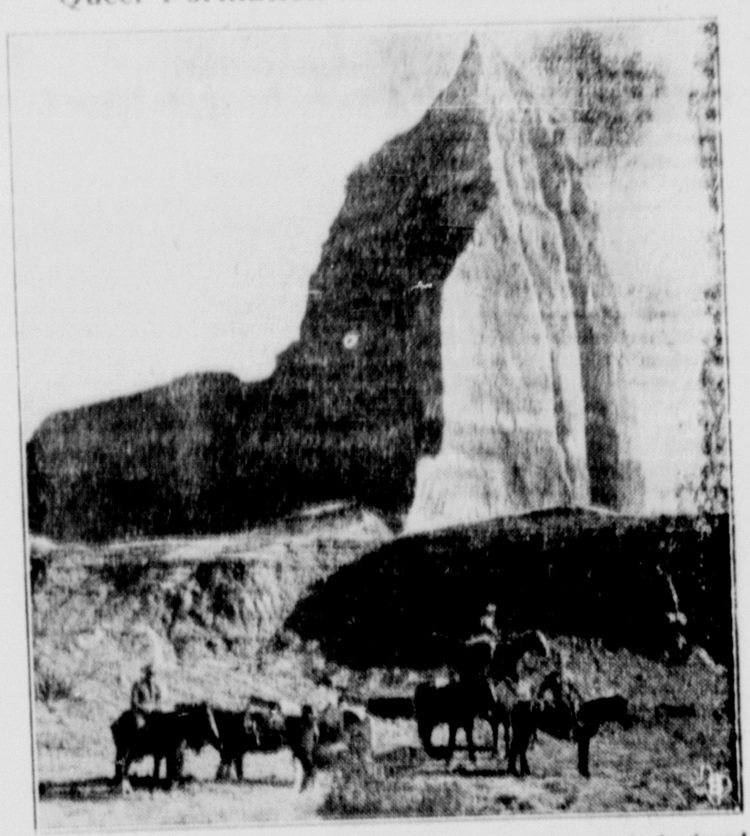
Queer Formation in Palo Duro Canyon



This strange monument of nature is one of the many to be found in the immense Palo Duro canyon, situated about 20 miles south of Amarillo, Texas. A Federal C. C. C. camp on the brink of the grotesque gash in the north plains is furnishing labor for the construction of a beautiful lodge at the crevice's edge, and a road into the depths has already been completed. It is said to be one of the most unusual feats of engineering in Texas, going down more than 1,500 feet within two miles. (Texas News Photos.)

TO STUDY SEA LIFE IN LOWER DEPTHS

Scientists to Go Down Half a Mile for Observation

Washington. — Continuation next summer of the unique deep-sea investigations of Dr. William Beebe under a grant of funds by the National Geographic society of Washington has been announced by Dr. Gilbert Grosvenor, president of the society. Doctor Beebe, who is director of the department of scientific research of the New York Zoological society, and a noted oceanographic naturalist, has developed during the last few years an entirely new method of undersea investigation which permits men to descend safely to depths which hitherto could not be reached.

Use Two-Ton Diving Ball.

Accompanied by an assistant, Doctor Beebe plans to descend to a depth of nearly half a mile below the surface of the sea inside the heavy steel ball (the "bathysphere") in which he has previously made the record descent for a living man—2,X0 feet. The unique diving ball is familiar to millions of Americans who saw it last summer and fall when it was on exhibit in the central room of the hall of science at the Century of Progress exposition in Chicago.

It is a thick-shelled sphere four-and-a-half feet in diameter and weighing two tons. It has windows of fused quarts fashioned to withstand the many tons of pressure to which it is subjected by the sea wafer. Through the windows beams of light are sent out into the water and the strange creatures of the ocean depths are observed. A steel cable lowers the sphere from a barge at the surface, and rubber-enclosed wires afford telephone communication and electric light.

No Air Tubes to Surface.

Furnishing air from the surface to the great depths reached by the bathysphere is impracticable. The observers are sealed into the ball, and an automatic valve steadily releases a supply of oxygen. Chemicals exposed in racks absorb moisture and carbon dioxide. At the end of the dive the observers are living in an atmosphere of slightly compressed air.

During Doctor Beebe's descents in 1930 and 1932 a number of forms of sea life not known before were discovered. Many of the strange creatures were found to possess glowing and flashing light organs which help them in their battle for life in the depths to which no sunlight ever penetrates. Doctor Beebe expects to add many new discoveries this year, and with the aid of additional new apparatus it is hoped to prolong the dives to five hours in order that detailed observations can be made on the wholly unknown activities and habits of deep sea creatures. As to the possibilities for pushing farther into the sea depths, he has written: "Next to going to Mars, there seems nothing more exciting and unpredictable."

In the past, the deep sea diving investigations have been carried on from laboratories made available by the British government on tiny Nonsuch island, of the Bermudas. This islet has recently been set aside for a government school, but this development will not in any way hamper the new expedition. It will make its headquarters on the mainland near Nonsuch at Doctor Beebe's new, perfectly equipped laboratory near the Bermuda biological station, and will carry on its underwater investigations in the same area used in past years. The work will start early in July.

SUSPENDED SENTENCE

Otto Schiller charged with selling intoxicating liquor, was given a three year suspended sentence in district court here this week.

Cases against Aubrey Farmer and Hubert Williams charged with burglary, are set for Friday.

Miss Merle Hunt Is Married To Leland Barnes In Temple

Miss Merle Hunt of Belton, daughter of Mr. and Mrs. J. E. Hunt of Killeen, was married Saturday night in Temple to Mr. Leland Barnes in the First Lutheran church, the pastor reading the ring ceremony.

After a short wedding trip they have returned to Temple where they will make their home. Mr. Barnes, son of County Commissioner, Otis Barnes, is with the highway department.

The bride is a sister of Mrs. J. B. White of Cameron and a popular young graduate of Belton high school and Baylor College.

The ceremony was witnessed by the family and close friends of the couple.

STANTON DOSSETT BACK FROM SAN ANTONIO COMMITTEE MEETING

Stanton Dossett, member of the State Executive Committee for the young Democrats of Texas, returned Wednesday night from San Antonio where a meeting was held to select a successor to McDonald Leech as national committeeman from Texas.

Thad Scott of Houston was chosen. Mr. Dossett has been urged by his friends for this place, but made no campaign for the place. He is a member of the committee from this senatorial district.

o

Graduation exercises were held at the Cameron Hospital Saturday evening. A delightful program was given followed with awarding of diplomas by Dr. D. E. Monroe to the following nurses: Misses Sarah Turner, Edna Hazel and Irene Starnes, and Johnnie Pearl Hairston.

Judge Ben Brooks of Kaufman Visits Here

Judge Ben Brooks of Kaufman county, newly elected president of the county judge's association of Texas, was in Cameron last week visiting in the home of his sister, Mrs. Charles F. Green.

On his way to the convention he stopped in Dallas to meet with the Young Democratic Clubs. He is one of the youngest county judges in Texas and this honor comes to him well deserved.

TIME TO PREPARE SHRUBS

Now is the time to prepare this year's shrubs for summer drouth, according to Mrs. Bill Smith, yard demonstrator for the Jones Prairie Home Demonstration Club. No annuals were allowed to grow in the beds as the plants are young and will need all the moisture possible. Mrs. Smith has found that since her soil is a black soil, frequent stirring and mulching of the bed keeps the cracks filled and prevents the moisture from evaporating.

GIFTS for Graduation

Just A Few Suggestions—

Hosiery
Brassieres
Stepins
Gloves
Purses
Boxed Handkerchiefs
Toilet Sets
Gift Sets
Memory Books
Collar Bin Sets
Military Sets
Shaving Sets

GRADUATION CARDS

A Nice Selection of Graduation Cards.
